

CDP

Features

- Compact lightweight design.
- Pneumatic air motor operation.
- Rotation sensor can be installed (Optional).
- Best design for end effector.
- Special dressing for portable spot welding gun.
- KTW cutter dresses upper and lower electrode simultaneously, ensuring long life span.

Specifications

Required Air Pressure (MPa)	0.5
RPM at No Load (rpm)	88
Max. Torque (N•m)	80
Air Consumption (L/min)	350
Weight (kg)	5.9

Operation & Caution

- Close welding gun after motor rotation.
- Recommended gun pressure on cutter is 2960[N] (300kgf).
- Pressurization time can be set arbitrarily (Approximately 2-4 seconds).
- After releasing the gun, the dresser stops rotating.

Portable Spot Weld Gun
