

CVC5-**2

Features

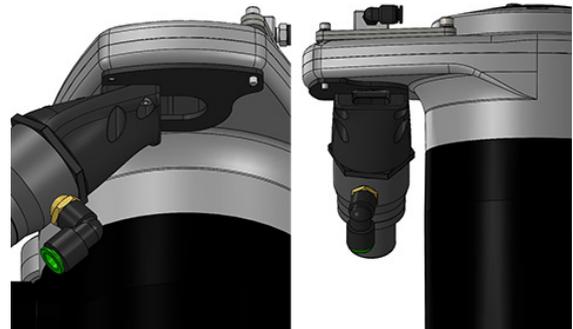

- Collects tips automatically after dressing.
 - Achieves wide accessibility for a gun because of its special structure.
 - Special custom shape helps create a strong vacuum.¹
 - Collected chips can be recycled.
 - Compatible with following dressers: CDK-R, CDK-SG, CDK-BAYO, CDK-DUAL, CD-SVR.
 - Included air blower can be used to prevent sticking of chips. (Option)²
 - CDK-R and stand are sold separately.
1. This product does not guarantee 100% collection of chips.
 2. If using an external product air blower unit, results may vary.

System 1

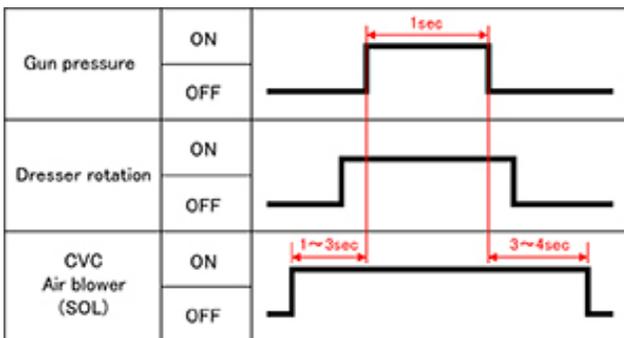

The custom bracket makes it easier for chips to enter the vacuum unit.

System 2

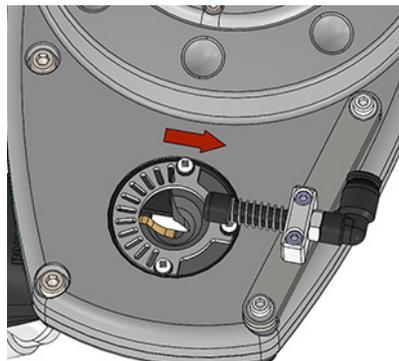

Air curtain prevents chips from falling.

Timing Chart

Option 1

- Air blower prevents chips from clogging.
- The holder cover helps prevent chips from flying out (holder cover is standard equipment).

Option 2

Full tank sensor for DB-01
