

# CVC5-\*\*\*3

## Features

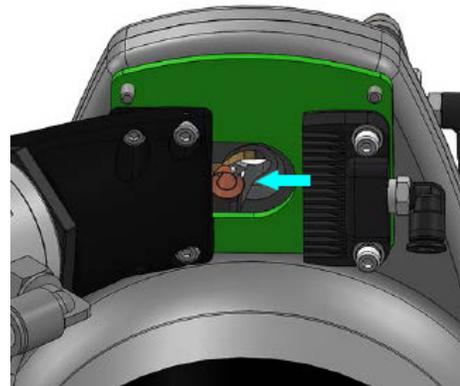

- Automatically collects tips after dressing.
  - Achieves wide accessibility for a gun because of its special structure.
  - Special collector shape generates a strong vacuum.<sup>1</sup>
  - Collected chips can be recycled.
  - Compatible with following dressers: CDK-R, CDK-SG, CDK-BAYO, CDK-DUAL, CD-SVR.
  - Included air blower prevents sticking of chips. (Optional)<sup>2</sup>.
  - Includes "Air Curtain" which prevents chips from falling.
1. This product does not guarantee 100% collection of chips.
  2. If using an external product air blower unit, results may vary.

## System 1

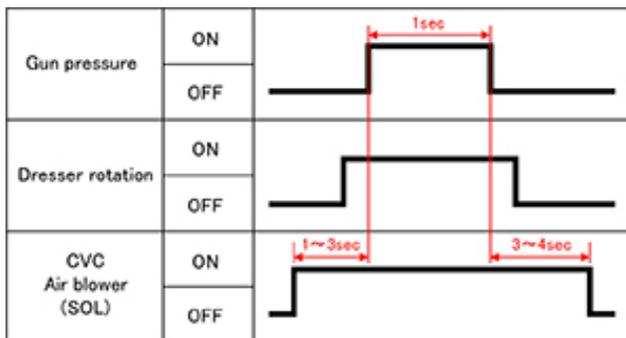

The custom bracket makes it easier for chips to enter the vacuum unit.

## Air Curtain

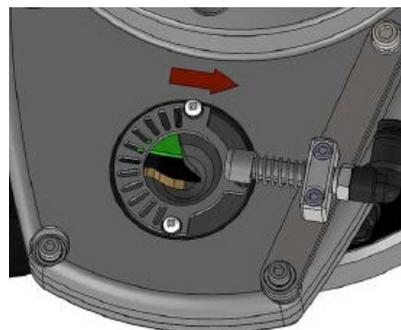

Air curtain prevents chips from falling.

## Timing Chart

## Air Blow

- Air blower prevents chips from clogging.
- Holder cover helps prevent chips from scattering due to air blow (holder cover is standard equipment).
- Improved durability through use of metal material.
